Arcade City

A CS110 Project

User Guide

Arcade City is a game whose objective is to collect tickets playing mini games to unlock other mini games. The games to play are Rock Paper Scissors and Higher or Lower.

1. Start screen-

Click start to advance.

2. Instructions screen-

Read the instructions, and hit play to begin.

3. Game screen

Click the first available game, rock paper scissors, to begin playing. After winning enough tickets, the other game will eventually be unlocked.

4. Rock Paper Scissors

Play against the computer and select either rock, paper or scissors. If you win, you get 30 tickets. If you lose, you lose 10 tickets. If it's a tie, no tickets are added or subtracted. Click back if you want to return to the game screen.

5. Higher or Lower

In order to unlock this game, you need 300 tickets. The game master will tell you a number. Your job is to guess whether the next number will be higher or lower. Click the respective buttons to lock in your guess. If you win, you get 50 tickets. If you lose, you lose 20 tickets.
